

Product Facts

ZION CI 8030 Corrosion Inhibitor

APPLICATION

ZION CI 8030 is a cooling water corrosion inhibitor for the protection of metals in open recirculating cooling water system. The product may be used alone or in conjunction with other inhibitors in systems operating with acidic to neutral pH in the circulating water. In conjunction with other inhibitors and dispersants, ZION CI 8030 can achieve excellent levels of corrosion inhibition in open circulating systems.

PRODUCT DATA

Appearance : Pale Yellow Liquid
Specific Gravity : 1.0 to 1.20
Flash Point : None

FEATURES

- Ready to use Liquid
- Easy to handle and feed
- Excellent corrosion protection

DOSAGE

ZION CI 8030 can be added, undiluted to the tower sump or to any other convenient point in the system. The dosage and frequency of addition depends upon the severity of problem.
